Concrete cornhole boards are ideal for public parks, schools, recreational areas, and other outdoor spaces.

**DELIVERY/
PLACEMENT**
(Concrete Cornhole)

IMPORTANT: Call ahead and liftgate services are always included with the delivery of the concrete cornhole game. The freight carrier will call prior to delivery to schedule a date and time that works for the customer. They will also provide a liftgate to lower the items to the ground.

NOTE: It is the customer's responsibility to move and place the items from the ground.

Please be sure to place the boards onto level ground, which can be any surface (e.g., grass, gravel, or concrete) as long as it is level.

LIFTING THE BOARDS SAFELY:

- 1- Carefully thread $\frac{1}{2}$ -13 x 4" bolts (**not included**) into inserts located on the sides of the unit. Make sure bolts are threaded into inserts at least one inch. Hand tighten only, do NOT use a wrench.
- 2- Use a nylon lifting strap and loop around bolt as shown. **Make sure the nylon strap is rated for lifting an object that is 633 lbs.**
- 3- Place cardboard or padding between strap and concrete.
- 4- Carefully raise the unit making sure the pickup point is in the center so the unit lifts level.
- 5- Carefully lower unit at desired location.
